INVESTMENT UNIVERSE AND PHILOSOPHY

The fund **MONACTION EUROPE** invests in large cap European equities.

The management style is quantitative consists of an intrinsic analysis of each company ("bottom-up"), driven by a model which is linked to four factors: earnings trend (or momentum), share price trend, quality and the value of the stock. The model seeks to maximise the Sharpe ratio with a minimum variance approach. The fund is strongly diversified and does not have as objective to replicate its benchmark.

RISK PROFILE

Lower risk/potential reward

Higher risk/potential reward

The risk indicator, based on past volatility, cannot cover all types of risks to which the fund may be exposed. It is possible that the past data used does not constitute a reliable indication of the future risk profile. The category associated with this fund is not a guarantee and can evolve with time. The lowest category is not synonymous with a "riskless" investment.

PERFORMANCE

Past performance is not a guarantee of future performance, nor is it constant with time and does not constitute in any case a guarantee of future performance.
